

To:

Managing committee

Kottayam branch of SIRC of ICAI.

Subject: Run a business with an excel work book.

Sir/Madam,

I have attended many classes on excel by eminent faculties at various ICAI branches in Kerala.

Sl no:	Faculty	Branch
1.	Saran	ICAI Thiruananthapuram
2.	Faculty from Thuthukkudi	ICAI Thiruananthapuram
3.	Chetan Dalal/Mahesh bhakthi	ICAI Thiruananthapuram
4.	Shifna and team	ICAI Kochi
5.	Sudhakaran sir	ICAI Kottayam

I have developed some excel solutions, which can be used as follows: It is about how to enter data in excel and use excel commands to get information.

Sl no:	Excel sheet named	Features
1.	CasDer-Accounting solution in excel	You can view ledger accounts and voucher details. Do analysis of accounting data using excel. Generate trial balance.
2.	StoDer-Inventory solution in excel	View stock ledger accounts. Generate stock balances. Units and value.
3.	CoBaSo-Basic banking solution in excel	Generate account statements. Generate balancing report. Simple interest calculations can be done. It can not handle net banking and ATM transactions.
4.	BILL-Billing solution in excel	You can prepare an invoice and print it.

MONEY MATTERS

If I train someone, they can train others. It can be easily learned by a CA with good knowledge of excel. So it is difficult to make money in conventional ways of IT business. The know how (it is not registered) is worth billions due to its utility value. But I can not figure out who will pay.

Personally, I am not after billions but is concerned about a nice retirement. I am more interested in making a contribution to human civilization.

To begin the process, I would like to train/discuss with a team of CAs with good knowledge of excel, preferably DISA in ICAI Kottayam branch.

Role of the team - Learn it, suggest improvements, trial run it and train others. Please consult ICAI and give me a feedback.

The names CasDer, StoDer and CoBaSo were given because I thought they were unique;

.When I searched internet, I found

CasDer is the name of a family in Europe and America.

CoBaSo is the name of a coffee equipment maker in Italy.

Attached with e mail:

- 1) A soft copy of bill.
- 2) A promo ppt.
- 3) This letter.

Thank you,

Sreejith.R BSc FCA FAFD DISA.
